

Using MyCard Design System:

1. Create an account using your email address and a password

The screenshot shows the registration page for the MyCard Design System. At the top, there is a banner with the text "in bringing you some of the largest variety and business card designs anywhere." Below this, the page title is "MyCard Design System" with the subtext "Powered by MyCard". The main heading is "Register". A message reads: "Please create a new login. Your cards will be saved under your username, so that only you may view and edit them." There are three input fields: "New Username(Email Address):" with the value "youremail@domain.com", "New Password:" with four dots, and "Confirm Password:" with four dots. A "Register >>" button is at the bottom.

2. Once you are logged in you can add images using the image gallery:

The screenshot shows the "Saved Card Log for anyone@domain.com" page. It displays "0 Saved Cards Found". There are links for "Image Galleries" and "Logout". A red arrow points to the "Image Galleries" link. A red text box says "CLICK ON IMAGE GALLERIES TO UPLOAD OR VIEW YOUR IMAGES". Below this is a table with columns: "Card Title", "Controls", "Created", and "Last Run". There is a "Create New" link above the table. The page is powered by MyCard.

3. Use Image Galleries to view, edit galleries and pictures for your images:

The screenshot shows the "My Galleries for anyone@domain.com" page. It has links for "Close My Galleries" and "Logout". A message reads: "Using this tool, you may define new categories of images, and upload images to those categories. These categories and images will be accessible to you, but not to other users. Click on the gallery name to add/edit images within the gallery." There is a section "Add a new Gallery" with a "Gallery Name:" input field, a "Shared" checkbox, and an "Add This Gallery" button. Below this is a section "Edit my existing Galleries" with a table. The table has columns: "Gallery", "Controls", and "Created". There is a "Cars (0 images)" entry with a "Cars" input field, a "Shared" checkbox, and "Update" and "Remove Gallery" buttons. The page is powered by MyCard.

4. To start designing click on “Create New”:

5. Once you are in the design system Use the following diagram to help navigate:
